

## OZ Solar Energy Solutions

Helping Australian Homes Save Money, Protect the Planet & Improve Quality of Life

### ✓ Who We Are

- OZ Solar is a 100% privately owned Australian company, registered since 2006.
- We are a NETCC Approved Seller and a proud member of Clean Energy Council (CEC).
- With years of experience in residential, commercial, and institutional solar projects, we deliver tailored, professional, and sustainable solutions.
- Our experts carefully assess your electricity bills and design the most efficient system for your home.

### 🔍 Why Choose OZ Solar?

- We maximise all available government rebates for you.
- Customised proposals ensure maximum output and value for money.
- We only use CEC-approved panels and inverters.
- Installations carried out by licensed installers accredited by Solar Accreditation Australia (SAA).
- We bring an ethical, professional, and environmentally responsible approach to every project.

### 🔍 At a Glance

- More than 3 million Australian homes already have rooftop solar.
- Over \$237 million in Victorian Government rebates provided.
- Victorians save over \$118 million every year on energy bills thanks to solar.
- Solar Homes Program will cut 4 million tonnes of carbon emissions — equal to removing 1 million cars from the road.

### 🔍 Why Solar Energy?

- Unlimited renewable resource — the sun will never run out.
- Clean, affordable, and sustainable energy source.
- Protect against rising fossil fuel and energy prices.
- Access generous federal and state government incentives.
- Reduce reliance on the grid and minimise power outages.

### 🔍 Rebates & Incentives

- Federal Government rebate of up to 30% of cost.
- Victoria Government rebate of up to \$1,400.
- Interest-free loan options available.
- OZ Solar \$0 Out-of-Pocket Plan – start saving from day one.

## 📄 5-Stage Quality Process & Warranties

- World-Class Equipment: Fully compliant with AU & international standards.
- Rigorous Testing: Panels tested for hail, salt, humidity, freezing/thermal cycles, and cyclone resistance.
- Trusted Manufacturers: Periodical audits to ensure Quality control.
- Accredited Installations: Thousands of installs, quality-checked regularly.
- Independent Certification: Every install comes with a Certificate of Electrical Safety.
- Health & Safety: Zero incidents to date with supervised installations.
- Warranties: Systems covered with up to 25 years of warranty.

## ⚡ Our Technology Partners

- Risen • LONGi • Jinko Solar
- Growatt • GoodWe
- SigEnergy • Alpha • NeoVolt

## 📄 Our Process

1. Proposal – Site visit, energy analysis, system output calculations.
2. Acceptance – Customer approval and contract signing.
3. Detailed Design – Electrical & structural planning, grid connection.
4. Installation – Safe, accredited work with testing and commissioning.
5. Ongoing Support – Long-term assistance and performance monitoring.

## 📄 Free Consulting Session

- Free on-site assessment visit.
- Free exclusive proposal tailored to your home.
- Free one-on-one consultation with solar experts.
